Harbour improvements.

Among the extensive works executed, a break-water* has been built, running out from Manora Point in a south-by-east direction to a distance of 1,500 feet into 6 fathoms of water; this affords complete shelter to the Entrance Channel during the south-west monsoon; also a channel has been opened through the bar with a depth of 20 feet at low water spring-tides 500 feet in breadth; the channel is marked by buoys, and these on entering should be kept on the port side about 150 feet.

No sailing vessel should come nearer this coast than 20 fathoms by night, or in rough weather, or under 12 fathoms by day in fine weather.

The tides during the springs are strong, the flood sets south-east and ebbs to the north-west.

From February to the end of the monsoon a strong south-easterly current is experienced, running at a rate of from 15 to 40 miles a day.

During the south-west monsoon, sailing vessels should make Ras Muari (Cape Monze), which is 18 miles west-half-north from Manora Light-house, and keep to windward

of the port, if the weather is thick, or if the tide does not suit for entering the harbour. Allowance must also be made for a strong set to the south-east, which prevails more or less during the south west monsoon.

Do not bring Manora Point to the southward-of-east, or go under 15 fathoms near Cape Monze.

Masters of ships should endeavour to make the port at daylight, and can with safety approach into 8 fathoms to about 2 miles distance from the light-house, keeping it, in any bearing, from north-east to north, and heave to for a Pilot.

ANCHORAGE IN THE ROADS.

From June to the middle of September, ships should not on any account anchor, but stand off and on, keeping the light-house bearing from north-by-east to north-east, 1 to 2 miles distant, until boarded by a Pilot or directed by signal.

September to end of March.

Anchorage light-house north-by-east to north-north-east, distant 1 mile, 7 fathoms.

No. 1. With reference to G. G. O. No. 656 of the 25th June 1874, and with the sanction of Her Majesty's Government, notifies that:—

I. During the year 1875, ninety (90) officers of the Staff Corps, and Cavalry and Infantry of the Indian Army, will be permitted to retire from the service, receiving, in addition to the pension to which they may be entitled by length of service under existing regulations, not exceeding the full pay pension of a Colonel (£456-5-0 per annum), an annuity representing the estimated value of their prospective claim to the Colonel's allowance, or its capitalized value, as they may prefer.

II. This offer is restricted to substantive Lieutenant Colonels who shall have completed 28 years' service, from the date of first commission, on or before the date from which they apply to retire, who may either, 1st, have been appointed to one of the Staff Corps on or before the 12th September 1866, and can claim the Colonel's allowance under the provisions of G. G. O. No. 808 of the 26th September 1866, or 2ndly, may be entitled, under G. O. G. G. of the 12th September 1862, to the Colonel's allowance after 12 years' service in the rank of Lieutenant Colonel.

III. The number allowed to retire under these conditions will be distributed as follows:—

For Bengal	...	40
„ Madras	...	30
„ Bombay	...	20
TOTAL	...	90

In the event of the whole of the retirements allotted to a particular Presidency not be-

ing taken up in that Presidency, those remaining will be distributed in such manner as may be determined by the Government of India.

IV. Applications to retire will be considered and disposed of successively according to priority of proposed dates of retirement until the number of retirements allotted to the service shall have been accomplished, when retirements under this order will cease for the year. In the event of its becoming necessary to select one from among two or three applicants for retirement on the same day, preference will be given according to seniority from the date of first commission.

V. Officers wishing to retire under the terms of this order must, whether in or out of India, submit their applications to the Office of Adjutant-General of their respective Presidencies, naming prospective dates for their retirements, such date not to be earlier than the 1st April 1875.

VI. Officers whose applications are accepted, will be gazetted out from the dates named by themselves, but will continue to perform their duties and receive the pay and allowances of their positions until officially informed of their removal from the effective list, either by direct communication, or by publication in the Gazette at the station at which they may be serving.

VII. Officers retiring under this arrangement will forego both the good service pension, if they are in receipt thereof, and all claim to bonus compensation under the terms of the despatch of the 8th of August 1866,* No. 160.

* G.G O. No. 808 of 26th September 1866.

VIII. Applicants to retire must state:—

1*st*.—Their rank and service.

2*nd*—Their age (supported by a certificate of birth, or in its absence, by a formal declaration).

3*rd*—Whether they wish to receive commutation for their prospective allowances in the shape of an annuity, or to capitalize its value. Officers who desire to receive the capitalized value of the annuity must attach to their applications a certificate in the form given in Appendix A. In the case of officers retiring out of India, the health certificate required will be called for and furnished under instructions from the India Office in London.

4*th*—Whether they desire to receive payment, wholly or in part, in India, or in England.

Page.

IX. The Table given in Appendix B shows the rates at which the expectation of the Colonel's allowance will be calculated in carrying this order into effect in the case of officers of various ages and service.

X. For the purpose of arriving at the amount payable in each case, whether as an annuity or in a single payment, officers' ages will be calculated from their birthday next succeeding the date from which they propose to retire, and the number of years they have to serve before becoming entitled to the Colonel's allowance will be calculated from the date of the proposed retirement. When the preriod to serve contains a fraction of a year, the fraction, if it be six months or under six months, will be excluded altogether; if it exceeds six months, it will be reckoned as a complete year.

XI. Payments of the *Capitalized value* of the annuity made in India under this order will be at the rate of 1*s*. 10½*d*. for the rupee.

XII. Officers who elect to receive an annuity in preference to the capital sum, will not, after their retirements have appeared in the Gazette, be allowed to capitalize such annuity under the provisions of this order; and it is to be understood that no separate applications of individual officers to retire after the present retirements have been allotted will be entertained on the basis of this order.

XIII. Officers of the half-pay list of the Staff Corps will be permitted, if disposed to retire from the service, to avail themselves of this scheme of retirement provided they are eligible thereto by the fulfilment, previously to their transfer to the half-pay list, of all the conditions required. The time passed by an officer on the half-pay list of the Staff Corps will not count towards the 12 years in the grade of Lieutenant Colonel required to qualify for promotion to the Colonel's allowance.

XIV. No application from officers to cancel their retirement or to change the rate of such retirement will be entertained after it has been announced in the official Gazette of the Presidency to which they belong.

DIRECTIONS FOR THE USE OF THE TABLE.

Find in the marginal column to the left of the Table the number of the years the officer has to serve before becoming entitled to the Colonel's allowance, and then in the same line of the Table the officer's age—(in column 2.)

The figure in the same line to the right of his age (in column No. 3, "Annuities") shews the annuity, and the figure to the left of his age (under column No. 1, "Values") shews the capitalized value of the annuity offered to him under this order.

EXAMPLE.—Lieutenant Colonel A. applies to retire on the 1st April 1875. He will be 49 years of age on the 4th May 1875. He will become entitled to the Colonel's allowance on the 1st August 1880. X of the order, is five years. The annuity offered to him is £ 364-8-0, and its capitalized value is £ 4,260.

No. 206.—With reference to G. G. O. No. 72 of 19th January 1875, notifies that the shoeing allowance referred to in para. 5 will be twelve annas per mensem for each horse, and that rupees five per mensem will be granted for fuel, &c., for carriage work. These allowances will be paid to the Farrier Sergeants of Batteries.

2. The following rules for the supply and repair of harness, saddlery, and line gear for batteries of Royal Horse and Field Artillery, will take effect from the 1st April 1875.

3. The equipments of the Royal Artillery in India, and materials of all kinds for keeping them in serviceable condition, will be supplied at the expense of the State. Each battery of artillery will indent on the Arsenal on which it is dependent for the supplies necessary to complete its authorized proportion of Ordnance Stores and materials for repair.

4. Indents from batteries in the Bengal Presidency to complete equipment will be prepared in the form and on the dates laid down in G. O. No. 358 of 1870, and those for materials for repair in the form and on the dates given in this order, and from batteries in the Presidencies of Madras and Bombay in the forms and on the dates to be determined on by the Governments of those Presidencies.

5. In the Bengal Presidency all indents, other than emergent, will be forwarded for sanction to the Ordnance Office, Fort William, addressed to the Assistant to the Inspector General of Ordnance and Magazines, whence they will be sent for compliance to the Arsenal on which the battery is dependent.

6. The rules for emergent indents in Bengal are fully detailed in paras. 2834 to 2840, Revised Army Regulations.

7. Such stores as are authorized by this order to be obtained in the local market, will be purchased by officers commanding batteries, and contingent bills for the cost incurred, supported by the station price current of materials and labor, under the signature of the officer in charge of the principal sudder bazar, will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

8. Officers commanding batteries will account, in the half-yearly returns submitted to the Examiner, Ordnance Accounts, for all stores thus obtained either on indent or by local purchase

Page.

9. All stores in use, the property of officers commanding batteries, which have been obtained by them on payment from Arsenals or the local market, on their present contract allowances, will be taken over by Government at a valuation to be decided on by a Committee of Officers.

10. Special Committees will be convened on an early date at each station to report on the condition of the entire equipment of Royal Horse Artillery and Field Batteries. These Committees will be assembled in Bengal under the orders of his Excellency the Commander-in-Chief, and in Madras and Bombay by direction of the Governments of those Presidencies. All deficiencies of component parts are to be brought to notice, and any and every article of equipment not in serviceable condition, or that requires repair, should be carefully noted and reported on.

11. The periods during which the various articles of equipment have been in use will be taken into consideration, and the Committee will record their opinion whether they will last the full time of service, or not. In the latter case, the Committee will state the reasons, whether from use or otherwise, which, as far as can be ascertained, will lead to their earlier condemnation. Articles of line gear must be of a suitable description and in serviceable condition.

12. Materials for repair, and surplus stores of suitable description which are in hand, the property of officers commanding batteries, will be carefully examined, weighed, counted or measured in the presence of the Committee. The value of the articles will be noted, and to enable the Committee to arrive at a just valuation, a certificate will be furnished signed by the officer commanding the battery, showing the actual cost incurred for all such materials obtained by him locally.

13. Stores supplied by the Ordnance Department will be rated by the Examiner, Ordnance Accounts—the actual payments made by officers being refunded for all stores thus obtained which are reported to be serviceable.

14. Bills supported by the proceedings of such Committees will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

15. Materials for the repair of saddle-trees, and repair and preservation of harness and saddlery, will be issued in the following proportions :—

16. Materials for the repair and preservation of harness and saddlery sufficient for six months' supply are to be carried in the store wagon.

17. In addition to the materials already detailed, the following will be kept as a reserve to be brought into use only should a sudden emergency arise. The officer commanding the battery will be held responsible that this reserve is always maintained, and that the articles are in good and serviceable condition.

18. With this view, stores should not be allowed to remain in reserve from year to year, as they would in course of time deteriorate; but on receipt of new articles, those longest in possession should be brought into use, and the new stores transferred to the reserve.

No. 248.—The following despatch from the Right Hon'ble the Secretary of State for India, which is in reply to an enquiry relating to Officers who held saleable Commissions on the 1st November 1871, is published for general information:—

MILITARY. INDIA OFFICE;

No. 21. LONDON, 28*th January* 1875.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—In reply to your letter No. 225, dated 20th November 1874, I have, after communication with His Royal Highness the Field Marshal Commanding-in-Chief, to inform you that

Page.

1.—An Officer exchanging to the Staff Corps after 1st November 1871, would, on retirement otherwise than upon a pension, be entitled to the full value (Regulation and over Regulation) of the Commission held by him on 1st November 1871.

2.—An Officer so exchanging and, eventually retiring from the Staff Corps upon a pension, would be entitled to the over Regulation value of the Commission held on 1st November 1871, in the same manner as if he retired to full or half pay from the regiment from which he was transferred.

3.—An Officer transferred from a non-purchase regiment would receive the compensation for loss of bonus belonging to the position which he occupied on 1st November 1871.

I have, &c.,

SALISBURY. 124

No. 268.—Under instructions from the Right Hon'ble the Secretary of State for India, declares the provisions of G. G. O. No. 374, dated 1st April 1873, applicable to Royal Engineer Officers returning to England after the expiration of their tour of service, in supersession of the ruling promulgated in G. O. C. C. No. 123, dated the 24th June 1871.

2. Such Officers when on English pay will receive it at the rates laid down for foreign stations in the Royal Warrants regulating their pay.

3. Servant's allowance will also be issuable under the same regulations 132

272.—With reference to the orders noted in the margin, directs that on the transfer of men of the mounted branches of the service from one corps or Battery to another serving in India, the unexpended allowance granted for their knee boots is to be transferred with them to their new corps or Battery.

G. G. O. No. 780, of 4th Aug. 1874. G. G. O No. 837, of 21st Aug 1874.

2. This order in applicable to the three Presidencies 132

No. 294.—With reference to G. G. O. No. 1 of 1st January 1875, it is notified, in order to remove some misapprehension which appears to exist on the subject, that, as noted in the order, all applications to retire under its provisions will be dealt with by priority of date of retirement, and not by priority of dates of application.

For example—if an Officer applies on the 1st April to retire from the 1st August, his retirement cannot be sanctioned till, on the arrival of the latter date, it is found that the number of retirements allowed has not been completed by retirements from an earlier date. An officer applying on the 15th June to retire on the 31st July would have a prior claim to be accepted.

The 1st April was merely fixed as the earliest date from which any retirement would be accepted in order to give officers out of India full time for consideration 145

No. 328.—In modification of clause 1 of G. G. O. No. 131, dated 8th February 1872 and of clause 4, in so for as it affects the mounted branches of the British Army, it is hereby notified that, when so required, the materials for clothing will be issued in bulk, uncut and untrimmed, but that in such cases Commanding Officers will be required to show, in their annual returns of clothing received and issued, the surplus from cuttings and savings at the end of each year; such surplus being deducted from their next year's indent for clothing materials.

2. This arrangement will apply to all Mounted corps now in India and arriving hereafter, and paragraph 6 of the Government General Order above cited will be understood to be modified accordingly.

3. The provision contained in paragraph 5 of the Order, as regards the Native Army, is also modified to this extent, *viz.*, that the materials for Native Commissioned Officers, and for one Havildar, and five rank and file per troop or company, shall be issued in bulk, uncut and untrimmed, if so required.

4. The existing rates for making up the clothing at regimental head-quarters will continue in force.

5. This order is applicable to the three Presidencies, and will have effect with respect to the clothing which will be due on the 1st April 1876, and to all subsequent issues 152

No. 341.—With a view to the assimilation of equipment in Native Infantry Regiments serving in India, it is hereby notified that Equipment Tables for the Native Infantry have been published for adoption throughout the three Presidencies.

2. No alteration in the scale of Equipment now laid down is to be made without the sanction of the Government of India, and all changes which may be made applicable to India will, from time to time, be published either in General Orders by the Government, or in those of His Excellency the Commander-in-Chief with the sanction of the Government.

3. Copies of the Equipment Tables will be distributed to corps and departments in the Bengal Presidency by the Inspector General of Ordnance, Bengal, under the orders of the Government of India, and to corps and departments in the presidencies of Madras and Bombay under the orders of the Governments of those Presidencies.

4. This order is applicable to the three Presidencies 153

No. 375.—Publishes for general information letter from Quarter-Master General of the Army, forwarding final despatch from Brigadier General W. Stafford, C.B., reporting the close of the operations carried on by the troops under his command in the Duffla country during the past cold season 183

Page.

No. 376.—The difference between the Indian and English scales of clothing for the Infantry of the Line having caused numerous references on the subject of the clothing to be issued to British Infantry soldiers on arrival in India, publishes the following rules for guidance.

2. All ranks should, on arrival in India, conform to the clothing regulations in this country. Accordingly men who received in England in 1873-74—

a tunic,
a kersey frock,
a pair tweed trowsers,
a „ serge „

should receive on arrival in India for 1874-75 the Indian scale of clothing, *viz.*:—

a tunic, or compensation in lieu,
a pair cloth trowsers,
a „ serge „ or compensation.

Those men who received in England in 1874-75:—

a kersey frock,
a pair tweed trowsers,

should receive on arrival in India for 1875-76 the Indian scale of clothing for that year, *viz.*:—

a serge frock, or compensation, with difference between tunic and serge frock.
a pair serge trowsers, or compensation, with difference between cloth and serge trowsers.

3. In the event of a Regiment of British Infantry arriving in India with *cloth* clothing, two years in wear, in a year in which serge is issued, the issue of cloth clothing will be made to such extent as may be required, on the understanding that no compensation will be admissible for the difference between cloth and serge clothing, which is only recognized to be due under G. G. O. No. 549 of 17th May 1872, in the second year of clothing, when the issue consists of serge frock and serge trowsers.

4. When desired by Commanding Officers of British Infantry Regiments, the Clothing Department is authorized to issue, as far as is conveniently practicable, serge frocks and trowsers up to the value of the compensation admissible under the provisions of paragraph 2 of the General Order.

5. This order is applicable to the three Presidencies 191

No. 391.—Decides that Officers Commanding Native Regiments shall submit a Statement quarterly in the annexed form, of all public monies received, paid, and remaining unexpended in their hands at the end of each year.

The Returns are to accompany the Pay Lists for the months of March, June, September and December of each year.

This order is applicable to the three Presidencies.

No. 408.—In continuation of G. G. O. No. 126, of the 29th January 1875, it is notified that one tent lascar will be allowed to each tent occupied by medical subordinates and commissariat sergeants on the line of march 200

No. 420.—It is hereby notified with reference to para. 19 of G. G. O. No. 550 of 1868, that in future, apothecaries and assistant apothecaries of the 2nd class who may attain to the 1st class of their respective grades after completing the prescribed period of 5 years' service in the lower class, will be required to show that they have not only kept up, but added to, their professional knowledge before they can be permitted to draw the increased pay of a 1st class apothecary, or assistant apothecary, as the case may be.

2 Under existing rules, medical committees are required to assemble on the 15th January and 15th July of each year for the purpose of examining assistant apothecaries who may be desirous of qualifying for promotion to the grade of apothecary; and under the terms of G. G O. No. 555 of 1874, committees will likewise assemble on the 1st May and 1st November of each year for the purpose of testing the progress made by hospital apprentices. After completing 4 years of service as 2nd class assistant apothecaries, subordinates of that rank may appear for examination before committees which may assemble on any of the above-mentioned dates.

Page

3. Rules for the examination of assistant apothecaries are laid down at page 65 of the Medical Code of 1851, and every subordinate of that grade will be required to pass the test therein prescribed before he can be allowed to draw the pay of a 1st class assistant apothecary, even though he may have been advanced to the position of one. Position, as heretofore, will be dependent on service; pay hereafter on qualifications.

4. The names of successful examinees will be reported, as at present, to Army Head Quarters, and published in General Orders by His Excellency the Commander-in-Chief, which will be sufficient authority for the admission of the higher rate of pay, provided, of course, that the condition of 5 years' service in the 2nd class shall have been fulfilled.

5. With the view of ensuring that none but qualified and efficient subordinates are promoted to the grade of apothecary, assistant apothecaries will be required, after serving 5 years in the 1st class to undergo further examination for the purpose of showing that they have maintained their professional knowledge. If unfavorably reported on, a 1st class assistant apothecary, who may stand first in the list for promotion, will be liable to supersession on the occurrence of vacancies in the next higher grade until he passes a satisfactory examination and is reported fit for advancement.

6. Second class apothecaries will come under the operation of the above rules, the object being to prove that they are deserving of the higher pay, as well as the superior position of a 1st class apothecary. The names of those who may be reported as qualified will be published in G. O. C. C., and the increased rate of pay passed on their completing 5 years' service in the 2nd class of the apothecary grade.

7. Proceedings of Examining Committees should be sent direct to the Surgeon General, Indian Medical Service, Calcutta, who will take such action as may be necessary in each case. Results of the examinations to be held under paragraphs 3 and 6 should be prepared *in duplicate* to admit of one copy being transmitted to Army Head-Quarters in view of the publication of the names of successful examinees in General Orders by His Excellency the Commander-in-Chief.

8. Promotion of Apothecaries to a higher grade, whilst on furlough, will be conditional on passing a professional examination after return to duty 201

2. The following documents will be forwarded to the medical officer in charge of the asylum,—a certificate of the date to which he is paid, a statement of all unadjusted claims, such as clothing or prize-money, and a descriptive roll in duplicate, giving every particular which may affect his claim to pension, wounds received, and the names of his nearest relatives or heirs.

SOLDIERS OF SHORT SERVICE.

3. An insane soldier who may not be entitled from length of service to a pension, will be paid up and struck off his regiment from date of departure, and an allowance of two annas a day for the period occupied on the journey may be drawn in advance and made over to the escort for the patient's subsistence on the road.
4. The paymaster of the military circle within which any such asylum is situated, will pay to the officer in charge of the asylum the expense of the lodging, maintenance, clothing and medicine of a Native soldier so received and detained, until he is discharged from the asylum, or in the case of a man incurably afflicted, for a period of two years only, after which the expense will be treated as an ordinary civil medical charge.

The stipend will be payable to his friends or relatives on production of the usual life-certificate.

The pension will be drawn monthly by the officer in charge of the asylum from the paymaster or pension paymaster of the circle in which the asylum is situated.
9. Should a pensioner be discharged and pronounced fit to be entrusted to his friends, he will be entitled, should he not have had a family dependent upon him, to any balance of his pension that may remain after deducting the cost of his maintenance whilst in the asylum.

G. O. No. 673 of the 1st July 1873.

This order is applicable to the three Presidencies:—

Rules for the examination of Surgeons previous to promotion to the rank of Surgeon-Major.

This examination is intended as a test for promotion, and may be taken at any time after the surgeon has served nine or more years.

When surgeons have served the requisite time, they will be examined in the following manner:—

A series of printed questions prepared by an Examining Board, consisting of the Principal of the Medical College and any two or more of the Professors he may associate with himself, for the purpose, will be sealed and sent by the Surgeon-General to the principal medical officers of stations where surgeons may be eligible for examination. It will be the duty of the principal medical officer of the station to deliver these sealed questions to the surgeons, and to see that they are answered without the assistance of books, notes, or communication with any other person. The answers are to be signed and delivered, sealed, to the principal medical officer, who is to send them, unopened, to the Surgeon-General, together with a declaration from the surgeon himself, or certificate from a superior medical officer, if there is one, that he has availed himself of every opportunity of practising surgical operations on the dead body.

* The surgeon may see this certificate before it is sent to the surgeon-General.

The surgeon is also required to transmit, together with his answers to the Surgeon-General, a medico-topographical account of the station where he may happen to be at the time, or of some other station where he may have been resident sufficiently long to enable him to collect the necessary information for such a report. Failing this, he will send a medico-statistical report of his charge for a period of at least twelve months.

If the Examining Board is satisfied with the replies to the questions, and the Surgeon-General is satisfied with the certificates and with the medico-topographical or statistical report, the surgeon will be held qualified for promotion 308

No. 605.—Under instructions from the Right Hon'ble the Secretary of State for India, the following Regulations regarding the grant of passages to General Officers of the British and Indian Services, who may be appointed to Divisional Commands and Army Staff appointments in India, are promulgated for general information:—

I.—All British officers and all officers of the Staff Corps and Indian Army, including those of the Royal (late Indian) Artillery and Engineers, appointed while residing out of India to Divisional Commands in India, will be entitled to passages for themselves and their families on proceeding to India to take up their commands, and on returning to England at the expiration of their tour of service.

II.—All Officers, whether of the British or Indian Service, residing in India at the time of such appointment and holding the rank of General Officers, and also those officers, if they belong to the British Service, who would, although not General Officers, necessarily return to England at the expiration of their tour of duty, will be entitled to a passage home.

Page.

III.—The Adjutant General and Quartermaster-General in India, though they may be General Officers, *ex-officio* only, will, on being relieved of their appointments, be entitled to the privileges of General Officers as regards passage when such officers belong to the British Service and would necessarily return home on the expiration of their tours of duty.

IV.—A General Officer proceeding to or returning from India on duty, unaccompanied by his family, will be entitled to reserved accommodation as for a single gentleman by a Peninsular and Oriental Company's steamer to Southampton, or a reserved cabin, as for married couples, for himself and wife if accompanied by her, with a first class passage for each child not accommodated in the same cabin: such reserved accommodation will always be provided for such officer whenever he may signify his wish to have a passage secured for himself, instead of receiving a money allowance under the provisions of the Royal Passage Warrant.

V.—If an allowance in lieu of reserved accommodation is given, the amount payable by Government will be the Peninsular and Oriental Company's charge to Southampton, less the authorized deduction for messing; but it will be optional with a General Officer either to receive the passage allowance or to be provided with the prescribed accommodation. In the former case, he is not of necessity bound to proceed by a Peninsular and Oriental Company's steamer, or to Southampton; but he will be at liberty to make his own arrangements to travel by any route.

VI.—In all cases where a passage allowance, based on the Peninsular and Oriental Company's rates, is given to any officer, the cost of freight of the regulated amount of baggage, in excess of the amount covered by the passage money, will be admitted as a public charge 319

Order books to be corrected accordingly ... 328

No. 644.—In continuation of G. G. O. No. 605 of 1875, rules that General Officers who, under its provision, are entiled to passages for themselves and their families on returning to England at the expiration of their tour of service, will be required to embark within six months from the date of their ceasing to be employed. Should this period be exceeded, except under special sanction, the claim to free passage will lapse ... 339

No. 658.—Directs that all charges for working pay for all branches of the service, British or Native, and including the Corps of Sappers and Miners, shall be supported by a statement shewing the nature of the work for which pay is claimed; the authority for the performance of the work, and for the issue of working pay on account of such work.

This ruling will not affect the power vested in Officers Commanding Corps of Sappers and Miners to classify their men in accordance with existing regulations.

This order is applicable to the three Presidencies. 341
